Aircraft Asset Management

Experience maximum cost transparency with ASG

Whether operating or investing in an aircraft is worthwhile depends on various factors and ultimately you have to make the decision. By conducting a comprehensive analysis of requirements, we endeavour to keep your risk to the absolute minimum – this means: we take care of all the finance and budget issues and provide you with an all-round concept for operating your aircraft.

This covers:

- solutions for insurance, maintenance, marketing and registration
- finance options
- issues concerning aviation legislation
